Education

Trinity College of Engineering and Research	*Bachelor in Computer Engineering | CGPA: 8.64*	11/2022 – Present
Shri. Gurudeo Datta Vidyalaya	*Higher Secondary Certificate | Percentage: 81.17*	06/2021 – 02/2022
New English School Kawathe	*Secondary School Certificate | Percentage: 82.80*	06/2019 – 03/2020

Skills

- **Programming Languages:** Java, Python
- **Web Development:** HTML, CSS, Tailwind CSS, Bootstrap, PHP, JavaScript, ReactJS, NodeJS
- **Database:** MySQL, MongoDB
- **Development Tools:** Git, GitHub

Internships

MERN Stack Developer Intern | EY GDS AICTE   10/2/2025 – 21/3/2025

- Designed and developed a Personal Finance Management System using the MERN Stack to help users track and manage their daily expenses.
- The application features real-time updates, allowing users to add, view, edit, and delete transactions with an intuitive and responsive user interface.
- It also includes data visualization tools such as charts and summaries to provide users with clear insights into their spending patterns.

Projects

Personal Finance management System | *ReactJS, NodeJS, Express.js, MongoDB*

- The Expense Management System is built to offer a convenient platform that enables users to efficiently track and control their spending.
- It provides real-time functionality, allowing users to easily add, view, modify, and remove their expense records as needed.

HealthConnect | *PHP, HTML, CSS, JavaScript*

- Developed a healthcare portal enabling patients to book appointments and view reports. Doctors can manage appointment requests, upload medical reports, and schedule follow-up visits through personalized dashboards

TourExplore | *HTML, CSS*

- Developed Tourexplore, a responsive and visually engaging travel website using HTML and CSS, showcasing tourist destinations with clean layout and user-friendly design

Achievements

- Second Runner-Up position in the Technical Project Exhibition at Innovation Fest 2024, held at Vishwakarma University.

Extra-curricular Activities

Front-End Development Workshop

- Collaboratively conducted a hands-on workshop on Front-End Development, covering HTML, CSS, and JavaScript. Helped guide participants through interactive coding exercises and explained key web development concepts.
